

## PAST TENSE

### What is Past Tense?

Past tense means something happened in the past. It could be many years ago, yesterday, or just a few minutes ago. Verbs change in special ways to show past tense.

- Most verbs that tell about the past end in ed. Example: look - looked, want - wanted
- If a verb ends in e, to make the past tense, you drop that e, then add ed. Example: hope - hoped

- I
- C
- S
- G
