

## RHYMING WORDS

### What Makes Words Rhyme with Each Other?

To rhyme, words must have the **same vowel sound and the same ending sounds**.

Examples:      hat and bat                      ten and hen  
                       big and pig                     hot and not  
                       bug and rug

Rhyming words do not always have the same vowel letter or ending letter.
