

## MONTHS OF THE YEAR

### What are the Months of the Year?

- There are twelve months in one year.
- The months are always in the same order.

**January, February, March, April, May, June, July, August, September, October, November, December**

### How to Figure out the Months:

- January, February, \_\_\_\_\_

**PREVIEW**

Please [Sign In](#) or [Sign Up](#) to download the printable version of this worksheet

- \_\_\_\_\_, September, October

### What month is missing?

This is a little trickier. Think about what comes before September. You know that September comes after August. That means that August must be the missing month.

**August**, September, October

## Try this!

- Write the month that comes next.

February \_\_\_\_\_

April \_\_\_\_\_

September \_\_\_\_\_

November \_\_\_\_\_

Dec
