COMMUTATIVE PROPERTY

Commutative Property of Addition

The commutative property of addition says that we can add numbers in any order and get the same sum.

$$2 + 4 = 4 + 2$$

Commutative Property of Multiplication

The commutative property of multiplication means that we can multiply numbers in any order without changing the product.

Ho
mu

You

-
-
-
- $2 + 7 = 9$

You can also multiply numbers in any order. The product will be the same.

- factor x factor = product

- $3 \times 4 = 12$

- Exchange the factors and the product is the same.

- $4 + 3 = 12$

Try This!

Fill in the number.

3 + 2 = 2 + _____

5 x 6 = 6 x _____

7 + 1 = 1 +
