

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Kingdom

Invertebrate

Mycelium

Migration

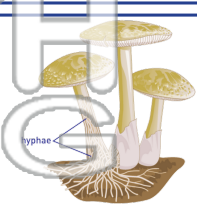

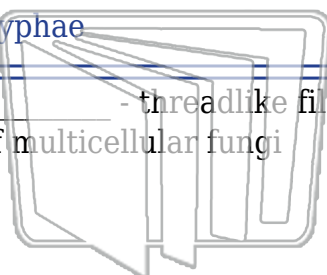

Hyphae

Mimicry

Learned behaviors

Inherited behaviors

1. _____ - threadlike filaments of branching cells that make up the bodies of multicellular fungi

2. _____ - traits that are not learned; they are instinctual behaviors

3. _____ groups of

4. _____ and the t kingdom

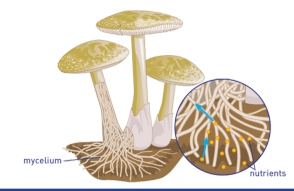

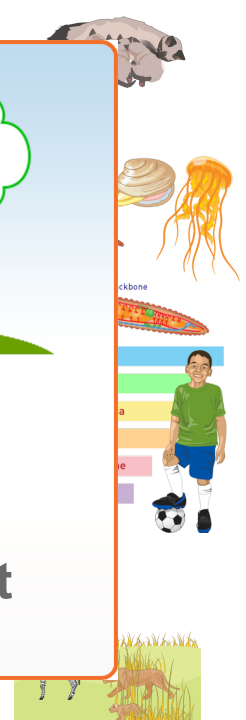

5. _____

PREVIEW
Please [Sign In](#) or [Sign Up](#) to download the printable version of this worksheet

6. _____ - the movement of animals during a particular season or time period, in response to changes in climate or availability of food

7. _____ - the act of resembling or acting like another organism in order to protect the organism from predators; an adaptation that allows an animal to look or act like a stronger (more scary) animal, this fakes its predators out by making them think they are poison

8. _____ - a mass of fungal hyphae that absorbs nutrients

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Kingdom

Invertebrate

Mycelium

Migration

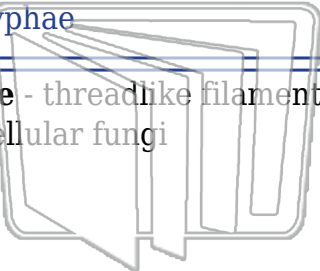

Hyphae

Mimicry

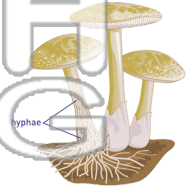

Learned behaviors

Inherited behaviors

1. **hyphae** - threadlike filaments of branching cells that make up the bodies of multicellular fungi

NEW PATH LEARNING

2. **inherited behaviors** - traits that are not learned; they are instinctual behaviors

3. **invertebrate groups**

4. **kingdoms** - the taxonomic groups of animals

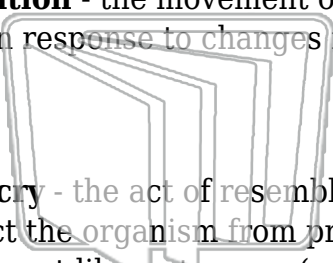

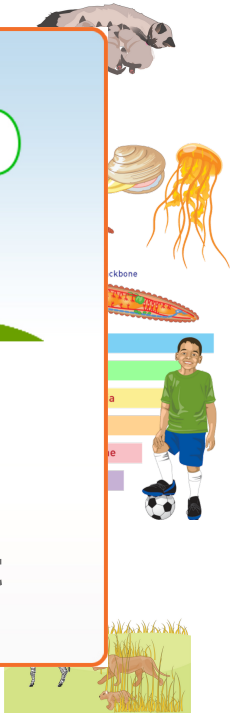

5. **learned behaviors**
