

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Red blood cells

Organ system

Passive transport

Platelets

Organism

Osmosis

Semipermeable

Respiratory system

1. _____ - a group of organs working together to perform certain functions

2. _____ - a living thing that is able to act on its own

3. _____ (semiper solution)

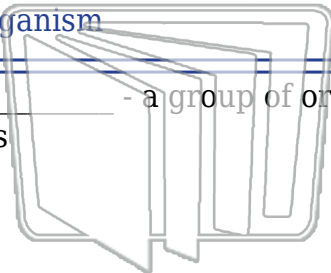

4. _____ an area of use of en

5. _____ Please [Sign In](#) or [Sign Up](#) to download the printable version of this worksheet

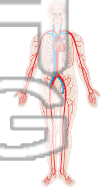

6. _____ - cells that carry oxygen throughout the body

7. _____ - system in the body made up of trachea, bronchial tubes, diaphragm and lungs which supplies the body with oxygen needed for survival and removes carbon dioxide

8. _____ - selectively permeable; allowing select materials to pass through while keeping others out, as through a cell membrane

NEW PATH LEARNING

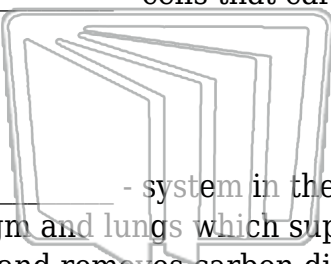

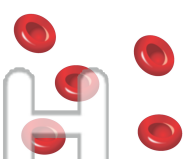

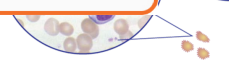

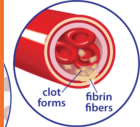

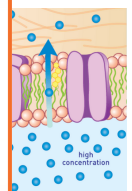

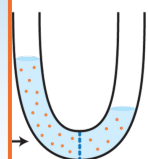

3. _____ (semiper solution)

4. _____ an area of use of en

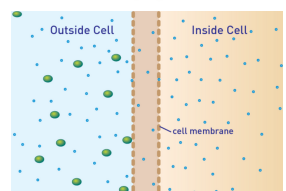

5. _____

PREVIEW
