

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Atmospheric pressure

Conduction

Climate

Chlorofluorocarbons

Biome

Atmosphere

Cirrus cloud

Air mass

1. _____ - the transfer of heat energy from the contact of one object to another

2. _____ - a huge body of air that has basically the same temperature and amount of moisture throughout

3. _____

4. _____ also called

PREVIEW

Please [Sign In](#) or [Sign Up](#) to download the printable version of this worksheet

6. _____ - a group of human-made chemicals that are known to breakdown ozone and cause atmospheric ozone depletion

7. _____ - thin, wispy cloud composed of ice crystals which form at very high altitudes in the atmosphere

8. _____ - the average weather of a region over an extended period of time
