

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

### Match each of the following terms to its definition:

Cartilage

Animal

Algae

Amphibian

Autotroph

Angiosperm

Atria

Archaeobacteria

1. \_\_\_\_\_ - a vertebrate that is ectothermic (cold-blooded) that spends part of its life in the water and part of its life on land; it begins its life in water having gills, and spends the later part of its life on land breathing with lungs

2. \_\_\_\_\_ - a large and diverse group of simple, plant-like protists ranging from unicellular to multicellular organisms; plant-like protists that contain chloroplasts

3. \_\_\_\_\_ seeds

4. \_\_\_\_\_ organism

5. \_\_\_\_\_ classification nucleus, sources; often found in harsh environments

6. \_\_\_\_\_ - the upper two chambers of the heart

7. \_\_\_\_\_ - a living organism, such as algae, that is capable of producing its own food; also called a producer

# NEW PATH LEARNING

8. \_\_\_\_\_ - connective tissue that is flexible and strong, but softer than bone

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

**Match each of the following terms to its definition:**

Cartilage

Animal

Algae

Amphibian

Autotroph

Angiosperm

Atria

Archaeobacteria

**1. amphibian** - a vertebrate that is ectothermic (cold-blooded) that spends part of its life in the water and part of its life on land; it begins its life in water having gills, and spends the later part of its life on land breathing with lungs

**2. algae** - a large and diverse group of simple, plant-like protists ranging from unicellular to multicellular organisms; plant-like protists that contain chloroplasts

**3. angiosperm** - plants that produce seeds

**4. animal** - an organism that is capable of movement

**5. archaeobacteria** - a classification of bacteria that lack a nucleus, and are often found in harsh environments

**6. atria** - the upper two chambers of the heart

**7. autotroph** - a living organism, such as algae, that is capable of producing its own food; also called a producer

**8. cartilage** - connective tissue that is flexible and strong, but softer than bone
