

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

### Match each of the following terms to its definition:

- |                           |                      |                           |                          |
|---------------------------|----------------------|---------------------------|--------------------------|
| Chemical sedimentary rock | Contact metamorphism | Igneous rock              | Lava                     |
| Felsic                    | Texture              | Foliated metamorphic rock | Clastic sedimentary rock |

1. \_\_\_\_\_ - how something feels when you touch it

# NEW PATH LEARNING

2. \_\_\_\_\_ - sedimentary rock formed by the chemical precipitation of mineral material from ocean water (such as gypsum, limestone and halite)

4. \_\_\_\_\_ contact v

6. \_\_\_\_\_ - metamorphic rock characterized by layered mineralization

# NEW PATH LEARNING

7. \_\_\_\_\_ - rocks that are formed underground when melted rock, called magma, deep below the Earth's surface, becomes trapped in small areas underground; they are formed above ground when lava erupts from a volcano and then cools

8. \_\_\_\_\_ - liquid (molten) rock that is extruded through the surface of the Earth's crust; melted rock that comes above the Earth's surface

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_
