

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Pascal

Pascal's Law

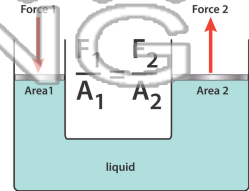

Bernoulli's Principle

Buoyancy

Barometer

Pressure

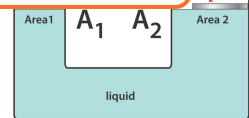

1. _____ - the principle that states when pressure is applied to a confined liquid, it gets spread out equally in all directions

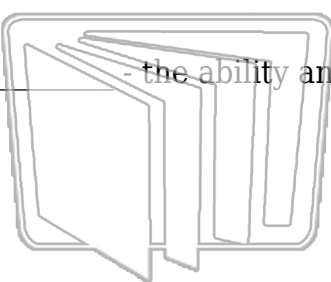

2. _____

3. _____
pressure

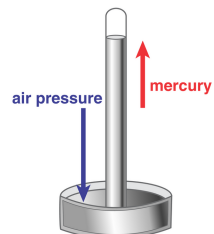

4. _____
to a conf

5. _____ - the ability an object to float in water

6. _____ - a scientific instrument meteorologists use to measure air (atmospheric) pressure

Name _____ Class _____ Date _____

Match each of the following terms to its definition:

Pascal

Pascal's Law

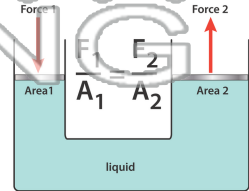

Bernoulli's Principle

Buoyancy

Barometer

Pressure

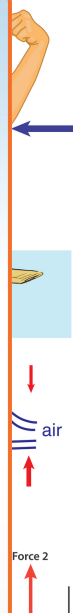

1. **Pascal** - the principle that states when pressure is applied to a confined liquid, it gets spread out equally in all directions

2. **press**

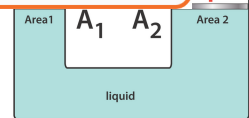

3. **Bernoulli's principle**

4. **Pascal's Law**
