

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

- 1 Match the term with the correct definition.
- |                                    |                                   |
|------------------------------------|-----------------------------------|
| <input type="checkbox"/> gas       | A. Changes shape & volume         |
| <input type="checkbox"/> liquid    | B. Definite volume & shape        |
| <input type="checkbox"/> solid     | C. Definite volume, changes shape |
| <input type="checkbox"/> amorphous |                                   |

- 2 Match the term with the correct definition.
- |                                       |                                    |
|---------------------------------------|------------------------------------|
| <input type="checkbox"/> melting      | A. Changing from a gas to a liquid |
| <input type="checkbox"/> condensation | B. Changing from a liquid to a gas |
| <input type="checkbox"/> freezing     | C. Changing from a solid to liquid |
| <input type="checkbox"/> vaporization |                                    |

- 3 A boat **floats** on water because its **density** is \_\_\_\_\_ the density

- 4 To convert **grams** to **milligrams** a student would **multiply** the number of grams by \_\_\_\_\_.

5

## PREVIEW

- 7 the **length** of large object, such as a school bus?

- |                                     |  |
|-------------------------------------|--|
| <input type="checkbox"/> A liter    |  |
| <input type="checkbox"/> B kilogram |  |
| <input type="checkbox"/> C meter    |  |
| <input type="checkbox"/> D degree   |  |

- A Water vapor is condensing on the mirror.
- B Water is melting on the mirror.
- C Water is evaporating on the mirror.
- D Water is dripping on the mirror.

- 9 The color of an object is a **physical property**. True or false?

- A true  
B false

- 10 **Solids** are **objects** that have a definite shape and \_\_\_\_\_.

- A no definite volume  
B volumes that are always changing  
C definite volume  
D just one color
