

Name _____ Class _____ Date _____

1

_____ refers to the natural processes that **break** rock into **smaller** and **smaller** pieces.

- A Subduction
- B Weathering
- C Oxidation
- D Erosion

2

Which of the following is **NOT** a type of **chemical reaction** that causes weathering?

- A hydrolysis
- B acid reaction
- C evaporation
- D oxidation

3

The burning of fossil fuels can cause **acid rain**.

True or false?

4

The **feldspar** found in **granite** is a mineral that **deteriorates** easily in the presence of water and natural chemicals.

5
