7 \_\_\_\_\_ when an object moves faster and faster

- B when an object moves at the same speed
- C when an object moves slower and slower
- D when an object speeds up often

moving.

- A moves at the same speed
- B never changes its speed
- C changes its speed
- D moves at a constant speed

9 \_\_\_\_\_ is a **push or pull** upon an object that causes it to change speed or direction.

- A A force
- B Friction
- C Speed
- D Pressure

10 What does a **force** involve?

- A only one object
- B no objects
- C heavy objects
- D two or more things interacting with each
