

# Relationships Among Living Things

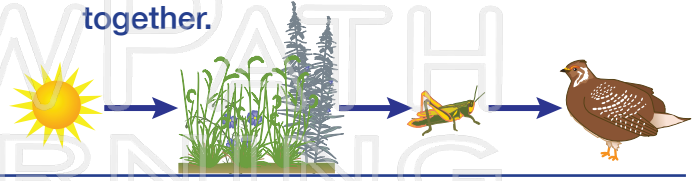

Sci  
C

Name \_\_\_\_\_ Class \_\_\_\_\_ Date \_\_\_\_\_

- 1 Two living things can **help each other** at the same time. An example of this is a **bee spreading pollen and getting nectar** from a flower. Give another example.

- 6 **Food chains** include **producers** and \_\_\_\_\_ interacting together.

- 7 When a **consumer eats a producer**, \_\_\_\_\_ is passed from the plant to the animal.

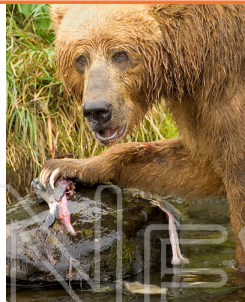

- 2 **Plants** don't have to depend on other living things for food because they are

their own

- 3 Living things depend on \_\_\_\_\_ their own

- 4 A **carnivore** eats \_\_\_\_\_ other \_\_\_\_\_.

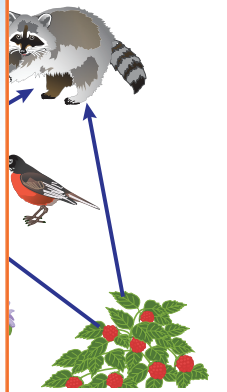

A bear eating a fish is one example, give another.

- 5 What is a living thing that eats **both plants and animals** called?

\_\_\_\_\_ is the community

## PREVIEW
